CEG, Anna University

Summer Internship Project

A virtual tour of College of Engineering Guindy's campus via the use of 360 images that provide an immersive campus walkthrough. Text-to-speech features along with relaxing lobby music brings a comfortable experience. The website is supported on mobile and PC browsers, as well as VR headsets, which bring out the complete experience.

Outcomes

- Virtual tour of the campus facilitated using A-Frame, 360 images, and directional arrows.
- Tested the website in various browsers and made the UI comfortable to use.
- Provided an immersive user experience which allows users to enjoy College of Engineering Guindy's campus through various angles.
